CAREER OBJECTIVE

Experienced and result-oriented **Production Engineer** with more than **15 years of proven expertise** in electronics manufacturing, production planning, quality assurance, and process optimization. Skilled in leading large teams, implementing Lean Manufacturing and Six Sigma principles, and ensuring high-volume production efficiency. Seeking the position of **Chief Production Engineer at Walton Electronics LTD**, Dhaka to leverage technical expertise, leadership, and innovation to drive operational excellence and organizational growth.

EXPERIENCE

Senior Production Engineer Jan 2018 - Present

Singer Bangladesh Ltd., Dhaka, Bangladesh

- Lead production operations of large-scale electronics manufacturing units ensuring efficiency and cost-effectiveness.
- Implemented Lean Manufacturing and Kaizen practices, reducing wastage by 20% and improving productivity.
- Directed a team of 100+ engineers, supervisors, and technicians to achieve production targets on time.
- Coordinated with R&D to integrate new technologies into production lines, ensuring innovation and quality improvement.
- Introduced preventive maintenance schedules, reducing equipment downtime by 30%.
- Ensured strict compliance with ISO standards, environmental regulations, and workplace safety protocols.

Production Engineer 2012 - 2017

Transcom Electronics Ltd., Dhaka

- Supervised assembly lines and improved production cycle times by optimizing workflow.
- Developed production schedules and coordinated with supply chain teams to ensure on-time delivery.
- Led a team of engineers and technicians to implement quality assurance processes.
- Trained junior engineers in process control and quality standards.

Junior Production Engineer 2007 - 2011

Transcom Electronics Ltd., Dhaka

- Monitored production processes and ensured smooth operation of machinery.
- Assisted in product design improvements for better manufacturability.
- Maintained daily reports on production output, defects, and downtime.

SKILLS

- Production Planning & Control
- Lean Manufacturing
- Six Sigma (Green Belt)
- Team Leadership & Training
- Supply Chain Coordination
- Process Automation
- PLC & Industrial Automation

- Quality Assurance & ISO Standards
- Preventive Maintenance
- ERP System Management
- Project Management
- Electronics Assembly
- Cost Reduction Strategies
- Health & Safety Compliance
- Root Cause Analysis

EDUCATION

- **Master of Science in Industrial Production Engineering**
Ahsanullah University of Science and Technology(AUST)
CGPA:3.80
2008 - 2009
- **Bachelor of Science in Industrial Production Engineering**
Ahsanullah University of Science and Technology(AUST)
CGPA:3.60
2003 - 2007
- **Higher Secondary Certificate (HSC) – Science**
Dhaka College
GPA:5.0
2001 - 2002

CERTIFICATIONS

- Six Sigma Green Belt – International Association for Six Sigma
- ISO 9001:2015 Quality Management Systems – Certified Auditor
- Lean Manufacturing & Process Improvement – AOTS, Japan
- Industrial Safety & Compliance Training – Bangladesh Industrial Safety Council

PROJECTS

Production Line Automation – Singer Bangladesh Ltd.

Led automation of television and refrigerator assembly line using PLC and robotics, reducing labor cost by 25% and increasing output by 40%.

Lean Implementation – Transcom Electronics Ltd.

Successfully implemented Lean tools (5S, Kaizen, Kanban), reducing production waste and improving efficiency by 20%.
